

Sodus Street Studio User Flow Map

Primary Website Goal

Guide visitors from initial interest to a clear action: book a session, explore services, listen to samples, contact the studio, or request help choosing the right session type.

The website should make the experience feel simple, creative, welcoming, and professional.

1. Primary Booking Flow

Flow

Land on Site → Understand Services → View Rates → Choose Session Type → Book a Session → Pay / Request Confirmation

Visitor Type

Visitors who are ready to record, rent the studio, or explore a creative project.

Entry Points

- Homepage
- Google search result
- Google Business Profile
- Social media link
- Direct domain visit
- Services page
- Booking page
- Referral from local creator or business

Step-by-Step Flow

Step 1: Land on Site

Visitor lands on:

- Home
- Services
- Booking
- Studio Space
- Contact

Step 2: Understand the Studio

Visitor should quickly understand:

- Sodus Street Studio is a multimedia recording studio in Clyde, NY.
- The studio serves podcasters, musicians, voiceover artists, entrepreneurs, storytellers, and content creators.
- The space is professional, welcoming, and beginner-friendly.
- The studio provides guidance for creators at every experience level.

Key homepage sections supporting this step:

- Hero Section
- About Preview
- Services Preview
- Studio Space Preview
- Booking CTA

Step 3: Understand Services

Visitor is guided to:

</services/>

Services include:

- Podcast Recording
- Voiceover Recording
- Audio Production & Editing
- Music Production
- Mixing
- Mastering
- Content Production Support
- Studio Rental
- Creative Consulting

Step 4: View Rates

Visitor sees clear pricing:

Hourly Session: \$75 per hour

Full Day Session: \$500 per day

Payment is due upon booking.

Step 5: Choose Session Type

Visitor chooses from:

- Podcast Recording
- Voiceover Recording
- Music Recording
- Audio Production / Editing
- Studio Rental
- Creative Consulting
- Full-Day Booking

Step 6: Book a Session

Visitor is directed to:

</booking/>

The booking page should include:

- Session types
- Rates
- Calendar or booking request form
- Payment details
- Cancellation policy
- Studio rules
- Booking FAQ
- Contact option

Step 7: Pay / Request Confirmation

Depending on the booking system, the visitor either:

- Pays at booking
- Submits a booking request
- Receives confirmation from the studio
- Receives a follow-up from the studio team

Success Action

The visitor either:

- Books a session
 - Pays for a session
 - Requests confirmation
 - Contacts the studio with a project question
-

2. Unsure Creator Flow

Flow

Creator Unsure What They Need → Read FAQ → Explore Services → Contact Studio → Book a Session

Visitor Type

Visitors who have an idea but are not sure what service, session length, or support they need.

Entry Points

- Homepage
- FAQ page
- Services page
- Contact page
- Google search result
- Social media link

Step-by-Step Flow

Step 1: Visitor Identifies Uncertainty

The website should make this path visible through supportive copy such as:

Not sure what to book? We'll help you figure it out.

Useful placement:

- Homepage
- Services page
- Booking page
- FAQ page

Step 2: Read FAQ

Visitor is directed to:

</faq/>

FAQ topics should include:

- Booking
- Studio sessions
- Services
- Rates and payment
- Guests and rules
- First-time creators
- Mixing, mastering, and editing
- Location and parking

Step 3: Explore Services

Visitor is directed to:

</services/>

They compare available services and session types.

Step 4: Contact Studio

If still unsure, visitor is directed to:

</contact/>

Contact form fields:

- Name
- Email
- Phone
- Project Type
- Message

Step 5: Studio Responds

The studio helps the visitor choose:

- Session type
- Session length
- Add-on services
- Preparation needs
- Booking date

Step 6: Book a Session

Visitor returns to:

</booking/>

Success Action

The visitor either:

- Understands what service they need
 - Contacts the studio for guidance
 - Books the correct session type
-

3. Portfolio / Sample Listener Flow

Flow

Potential Client → Listen to Samples → Review Services → Book Session

Visitor Type

Visitors who want proof of quality before booking.

Entry Points

- Portfolio page
- Homepage
- Services page
- Social media link
- Google search result

- Referral from past client or creator

Step-by-Step Flow

Step 1: Land on Portfolio / Samples

Visitor lands on:

</portfolio/>

The page should show:

- Podcast clips
- Voiceover demos
- Music recordings
- Edited audio samples
- Branded content samples
- Before-and-after examples if available

Step 2: Listen to Samples

Each sample should include:

- Project type
- Short description
- Services provided
- Audio player or video embed
- Creator or client name if approved

Step 3: Build Trust

The visitor should understand:

- The studio can produce clean, professional audio.
- The studio works with different types of creators.
- The space is suitable for both beginners and experienced creators.
- The studio can help with recording, editing, production, and final polish.

Step 4: Review Services

Visitor is directed to:

</services/>

They compare relevant services based on the sample they liked.

Step 5: Book Session

Visitor is directed to:

[/booking/](#)

Success Action

The visitor either:

- Books a session
 - Contacts the studio about a similar project
 - Explores services further
-

4. Local Search Visitor Flow

Flow

Search Result → Services / Studio Space → View Rates → Book Session or Contact Studio

Visitor Type

Visitors searching locally for a recording studio, podcast studio, voiceover studio, or creative space near Clyde, NY.
